# AWS Agility + Splunk Visibility
= Cloud Success

Amazon Web Services (AWS) is the world's most comprehensive and broadly adopted cloud platform.

"**Customers love** having the agility of AWS with the end-to-end visibility of Splunk."

ANDY JASSY
CEO, AWS

"**Joint customers** can instrument their usage of the cloud and easily see what's being created when and how quickly."

DOUG MERRITT
CEO, Splunk

Splunk makes machine data accessible, usable & valuable for everyone.

Splunk has over
14,000
customers worldwide
